MANUAL DEFROSTING

This function is used for defrosting food not included in the Jet Defrost function.
Follow the procedure for “How to cook and reheat with microwaves” and choose 160 W when defrosting manually.

KITCHEN TIMER

Use this function when you need a kitchen timer to measure exact time for various purposes such as cooking eggs, pasta or letting the dough rise before baking etc.

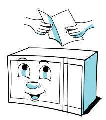

1. Turn the multifunction knob to the zero position.
2. Turn the +/- knob to set the time to measure.

The timer automatically starts the countdown after 1 second.

JET START FUNCTION

This function is used for quick reheating of food with a high water content such as; clear soups, coffee or tea.
Press to automatically start with full microwave power level and the cooking time set to 30 seconds. Each additional press increases the time with ½ min. You may also alter the time by turning the Adjust knob to increase or decrease the time.
This button also works as a normal start button after setting a function.

NOTE: Never operate the oven empty when using microwaves
